

About Us

Founded in 2000, the African Peoples Action Congress (African PAC, Inc.) is the oldest premier umbrella organization in the United States that seeks to bring together all African immigrants for a common purpose – from faith-based organizations, to ethnic / community-based associations, to student or professional associations, and indigenous businesses. As such, we are non-partisan, non-profit, non-sectarian, and non-governmental. Our **mission** is to bring a coordinated **Voice** and **Visibility** to the core issues and challenges facing African immigrants in the United States, and to **Mobilize** our people for action.

In the African PAC, we treasure our tribes and tongues, and strongly believe we hold the last promise for Africa's future. We are diverse and dynamic, with a thriving generation of immigrant communities, where members and business affiliates grow and succeed together.

We seek to be a global leader among African immigrant organizations in the 21st Century.

Headquartered in the Washington DC suburb of Northern Virginia, we serve the MD/DC/VA areas by providing consulting services, programming, and advocacy to African immigrants, engage all tiers of US government / policy-makers, and the public / private sectors. We seek government & private grants and contracts, in addition to membership support, to achieve our *mission*. We commit to delivering high-quality results or we wouldn't even try. Our motto: "*No Substitute for Action*," is our only mandate and we make it our business to know you and your issues. Please visit our web site for other details on **ways you can get involved** with what we are doing to help Africa and diaspora African immigrants.

Our Strategic Goal

To achieve a sense of Economic direction, Social expression, and Political representation, in the United States.

What We Do

Service is the cornerstone and driving force behind our success:

- ❖ Protection and support of African immigrant interests
- ❖ Project & Program Management
- ❖ Improvement of social conditions for African immigrants
- ❖ Citizenship orientation and advocacy
- ❖ Legislative & Political Awareness
- ❖ Cultural heritage activities
- ❖ Entrepreneurial and employment opportunities
- ❖ Recognition of excellence and achievements in the community
- ❖ Education, empowerment, and mobilization of the community
- ❖ Taking *Action* – and not just talk.
